*The year 2006 marks the 125th anniversary of the American Red Cross serving the American public through times of war and peace with disaster assistance, blood collection, safety training and countless other community assistance services. From inception, the organization's actions have been guided by its dedication to humanity and a desire to promote mutual understanding, friendship, cooperation and a lasting peace. Today, under the same trusted symbol, the American Red Cross has helped save and improve the lives of millions. Through the dedication and self-sacrifice of employees and volunteers, as well as the generosity of the American public, the Red Cross is there to help people—across the street, across the country and across the world—prevent, prepare for and respond to life's emergencies.*
